

KALDEWEI

Luxstainable® Bathrooms

KALDEWEI

A REVOLUTIONARY FORCE

Recognized for over 100 years for producing durable, innovative, and design-forward bathroom fixtures crafted from premium steel enamel, KALDEWEI has been a trendsetter in defining the luxury bathing experience.

Years ago, KALDEWEI introduced the concept of LUXSTAINABILITY®, inspiring the brand to create timeless yet radically modern pieces. Today, KALDEWEI pushes the boundaries of imagination once again with the striking new Mineral Stone Collection, recognized as a fusion of contemporary craftsmanship, material science, and luxury.

TRADITIONALLY VISIONARY

TRADITION

KALDEWEI is a German family-run company that has been creating bathroom solutions combining modern luxury with sustainable thinking. The company describes this global strategic orientation with the term LUXSTAINABILITY® which is originated from KALDEWEI's interpretation of "Luxury" and "Sustainability". Luxury stands for the classic designs that delight the user for a long time; Sustainability stands for minimizing the impact of consumption on the environment by maximizing the product life. KALDEWEI is the only bathroom manufacturer who has developed its own enamel formula and still produces the enamel in its own laboratory.

PASSION

Whether shower surface, bathtub or washbasin – steel enamel is our material and passion is what drives us: for the highest precision, for timeless aesthetics and the technical challenges that we master as pioneers. This passion has characterised our employees for generations. They have made us the epitome of long-lasting bathroom objects. Only they are able to bring our high standards of design, product and manufacturing quality to life. Yesterday, today and in the future.

SUSTAINABILITY

Anyone who has been transforming natural raw materials into durable, timelessly beautiful products for more than 100 years and thinks in terms of generations has firmly and immovably anchored the issue of sustainability in their DNA. Especially as our enamelled steel is the future-proof material for sanitary products, is 100 % recyclable and consists of at least 20 % recycled steel. It is therefore only logical to make production and transport just as resource-efficient. To protect our environment and with our future generations in mind.

AWARD EXCELLENCE

In 2017, we were honoured for our resource-conserving philosophy with one of the most prestigious sustainability awards for ecologically outstanding products and buildings: the "Green Good Design Award". A further step on our path to a future worth living. We are consistently shaping this in terms of sustainable business practices and the sustainable use of resources. For example, we were the first sanitary ware supplier to draw up the environmental product declaration in accordance with the IBU (Institut Bauen und Umwelt), we are a member of the DGNB, the German Sustainable Building Council, and in 2020 we signed the SBTi, the Science Based Targets initiative, which commits companies to the consistent and transparent reduction of greenhouse gases. In 2021, we processed the first climate-friendly steel in the sanitary industry and offered KALDEWEI nature protect, a 100 % circular, durable product line that is up to 70 % CO₂-reduced.

DESIGN

Boasting more than 150 awards, such as the Red Dot Design Award, Plus X Award, Iconic Awards, Interior Innovation Award, German Design Award, Design Plus, Good Design and iF Product Design Award prove that, in addition to premium quality and sustainability, we always emphasise perfect design. Our designers create products, looks and shapes that give your bathroom its special character and timeless beauty.

Recognised as a leading international manufacturer, KALDEWEI is represented in more than 80 countries across the world. Project decision-makers and private builders throughout the world appreciate the many advantages offered by superior KALDEWEI steel enamel which is used in numerous top-class hotels and residential projects.

KALDEWEI
MINERAL STONE

Material has always been an essential element of KALDEWEI's DNA, as the brand believes that material is the core of a successful product. After the revolutionary formulation for enameling redefined bathroom luxury, the brand's exclusive self-developed material, KALDEWEI

Mineral Stone, is set to transform perceptions of bath culture again. The flexibility of the material empowers designers to create products without constraints, allowing for unique designs. This exclusive material offers an exceptional blend of aesthetic appeal and comfortable functionality.

Design Steve Leung

Steve Leung is an internationally acclaimed architect, interior and product designer with over 40 years of extensive design experience. Taking inspirations from Asian culture and arts, his works are renowned for their unique contemporary style.

“With today’s intense lifestyle and challenges, immersing in a relaxing bath is the ultimate retreat. This sacred moment of tranquility revitalizes the body and rejuvenates the spirit, serving as a precious indulgence to treasure amidst daily hustles.”

Steve Leung

CRESCENT – A CELEBRATION OF THE LUNAR ECLIPSE

The discreet, curved lines of the bathtubs and washbasin subtly evoke the harmonious encounter of the sun and moon’s rounded silhouettes, creating an overlap of two perfectly

balanced circles. An ode to the magic of time, CRESCENT celebrates the luxury of personal moments, capturing the indulgent experience of soaking in a fragrant bath.

The collection CRESCENT includes freestanding round and oval bathtubs paired with a freestanding washbasin – all embracing the same creative vision and matching design language.

**THE ESSENCE OF EXTRAORDINARY DESIGN:
BLENDING AESTHETICS AND PRAGMATISM IN CRESCENT**

With its built-in ledges, CRESCENT's spa-style freestanding bathtubs seamlessly blend aesthetics and practicality. Rather than requiring multiple pieces of furniture – such as small tables and cabinets to hold personal items – CRESCENT elegantly integrates all these elements into a single cohesive design.

Radiating sheer elegance through the purity of its forms, CRESCENT's bathtubs feature gently sloping outer and inner ledges that provide thoughtful functionality. On the outer ledge, patrons can conveniently place a glass of champagne, delicious snacks, or even their phone playing a soothing playlist. The inner ledge, positioned slightly lower than the outer one, enhances the bathing experience by offering an ergonomic shape for back and neck support. Users can comfortably relax in the warm water, indulging in the ultimate relaxation.

POP-UP WASTE INCLUDED. OVERFLOW SOLUTION, FURTHER COLOUR VARIANTS OR OTHER DETAILS ON REQUEST.

CRESCENT 8801/8800

DESIGN STEVE LEUNG

CRESCENT's freestanding round bathtub marks a groundbreaking design and manufacturing endeavor – the first fully round bathtub crafted entirely from mineral stones by KALDEWEI. Exuding luxury, this elegant spa-style standalone bathtub comfortably accommodates two people, quickly becoming the focal point of any bathroom, regardless of its style.

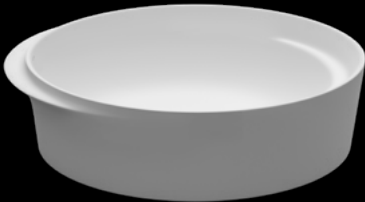

ROUND FREESTANDING BATHTUB

MODEL	COLOUR	MEASUREMENTS (MM)
8801	White Matt	1550 × 1450 × 570
8800	White Matt	1400 × 1300 × 570

CRESCENT 8811/8810
DESIGN STEVE LEUNG

In its debut design collaboration with acclaimed designer Steve Leung, CRESCENT's freestanding oval bathtub showcases a sleek and contemporary aesthetic.

COLLECTION
COCOON

COCOON's spacious interior and gentle shoulder support create a cocooning experience, cradling bathers in a warm embrace that evokes inner peace and revitalizes authenticity.

Beyond serving as a traditional bathtub, COCOON has transformed into a central element of spatial design, elevating everyday bathing into a nourishing ritual that rejuvenates both body and soul, allowing for a profound release of emotion. With its gentle S-curve design and pure

white color, COCOON converges minimalist aesthetics with contemporary luxury. Crafted from KALDEWEI's exclusive mineral stone, COCOON reflects the time-honored craftsmanship of artisan pottery, harmonizing effortless elegance with exceptional durability.

COCOON 8815/8814
DESIGN STEVE LEUNG

COCOON's sleek S-curve silhouette embodies minimalist aesthetics, enhanced by a spacious interior and gentle shoulder contours that embrace the body. This design evokes the soulful comfort of a cocoon, with its meticulously sculpted ergonomic shape supporting and cradling the bather, promoting relaxation and fostering inner peace and rejuvenation.

COLLECTION
CIRRUS

Beyond merely serving as a traditional bathtub, CIRRUS has evolved into a central element of spatial design, elevating everyday bathing into a luxurious ritual that nourishes both body and soul.

The ergonomic oval shape of CIRRUS gently cradles the body, offering unparalleled comfort and relaxation. With its pure white surface and asymmetrical, cloud-like lines, the design exudes an ethereal elegance, seamlessly uniting minimalism with contemporary luxury. Inspired by the natural fluidity of drifting clouds and flowing water, CIRRUS embodies effortless simplicity and freedom from constraints.

Crafted from premium KALDEWEI Mineral Stone, CIRRUS enhances the bathing experience with a smooth, refined surface that combines aesthetics with functionality. It invites users to escape everyday stress, reconnect with nature, and indulge in a moment of relaxed happiness.

POP-UP WASTE INCLUDED. OVERFLOW SOLUTION, FURTHER COLOUR VARIANTS OR OTHER DETAILS ON REQUEST.

CIRRUS 8820/8821
DESIGN STEVE LEUNG

CIRRUS incorporates the concept of relief art, seamlessly blending minimalist aesthetics with elements of contemporary luxury. The irregular, asymmetrical clean lines at both ends impart an ethereal quality, resembling clouds floating in the air. The ergonomic oval shape gently cradles the body, significantly enhancing comfort and enjoyment.

8821	White Matt	1700 × 770 × 580

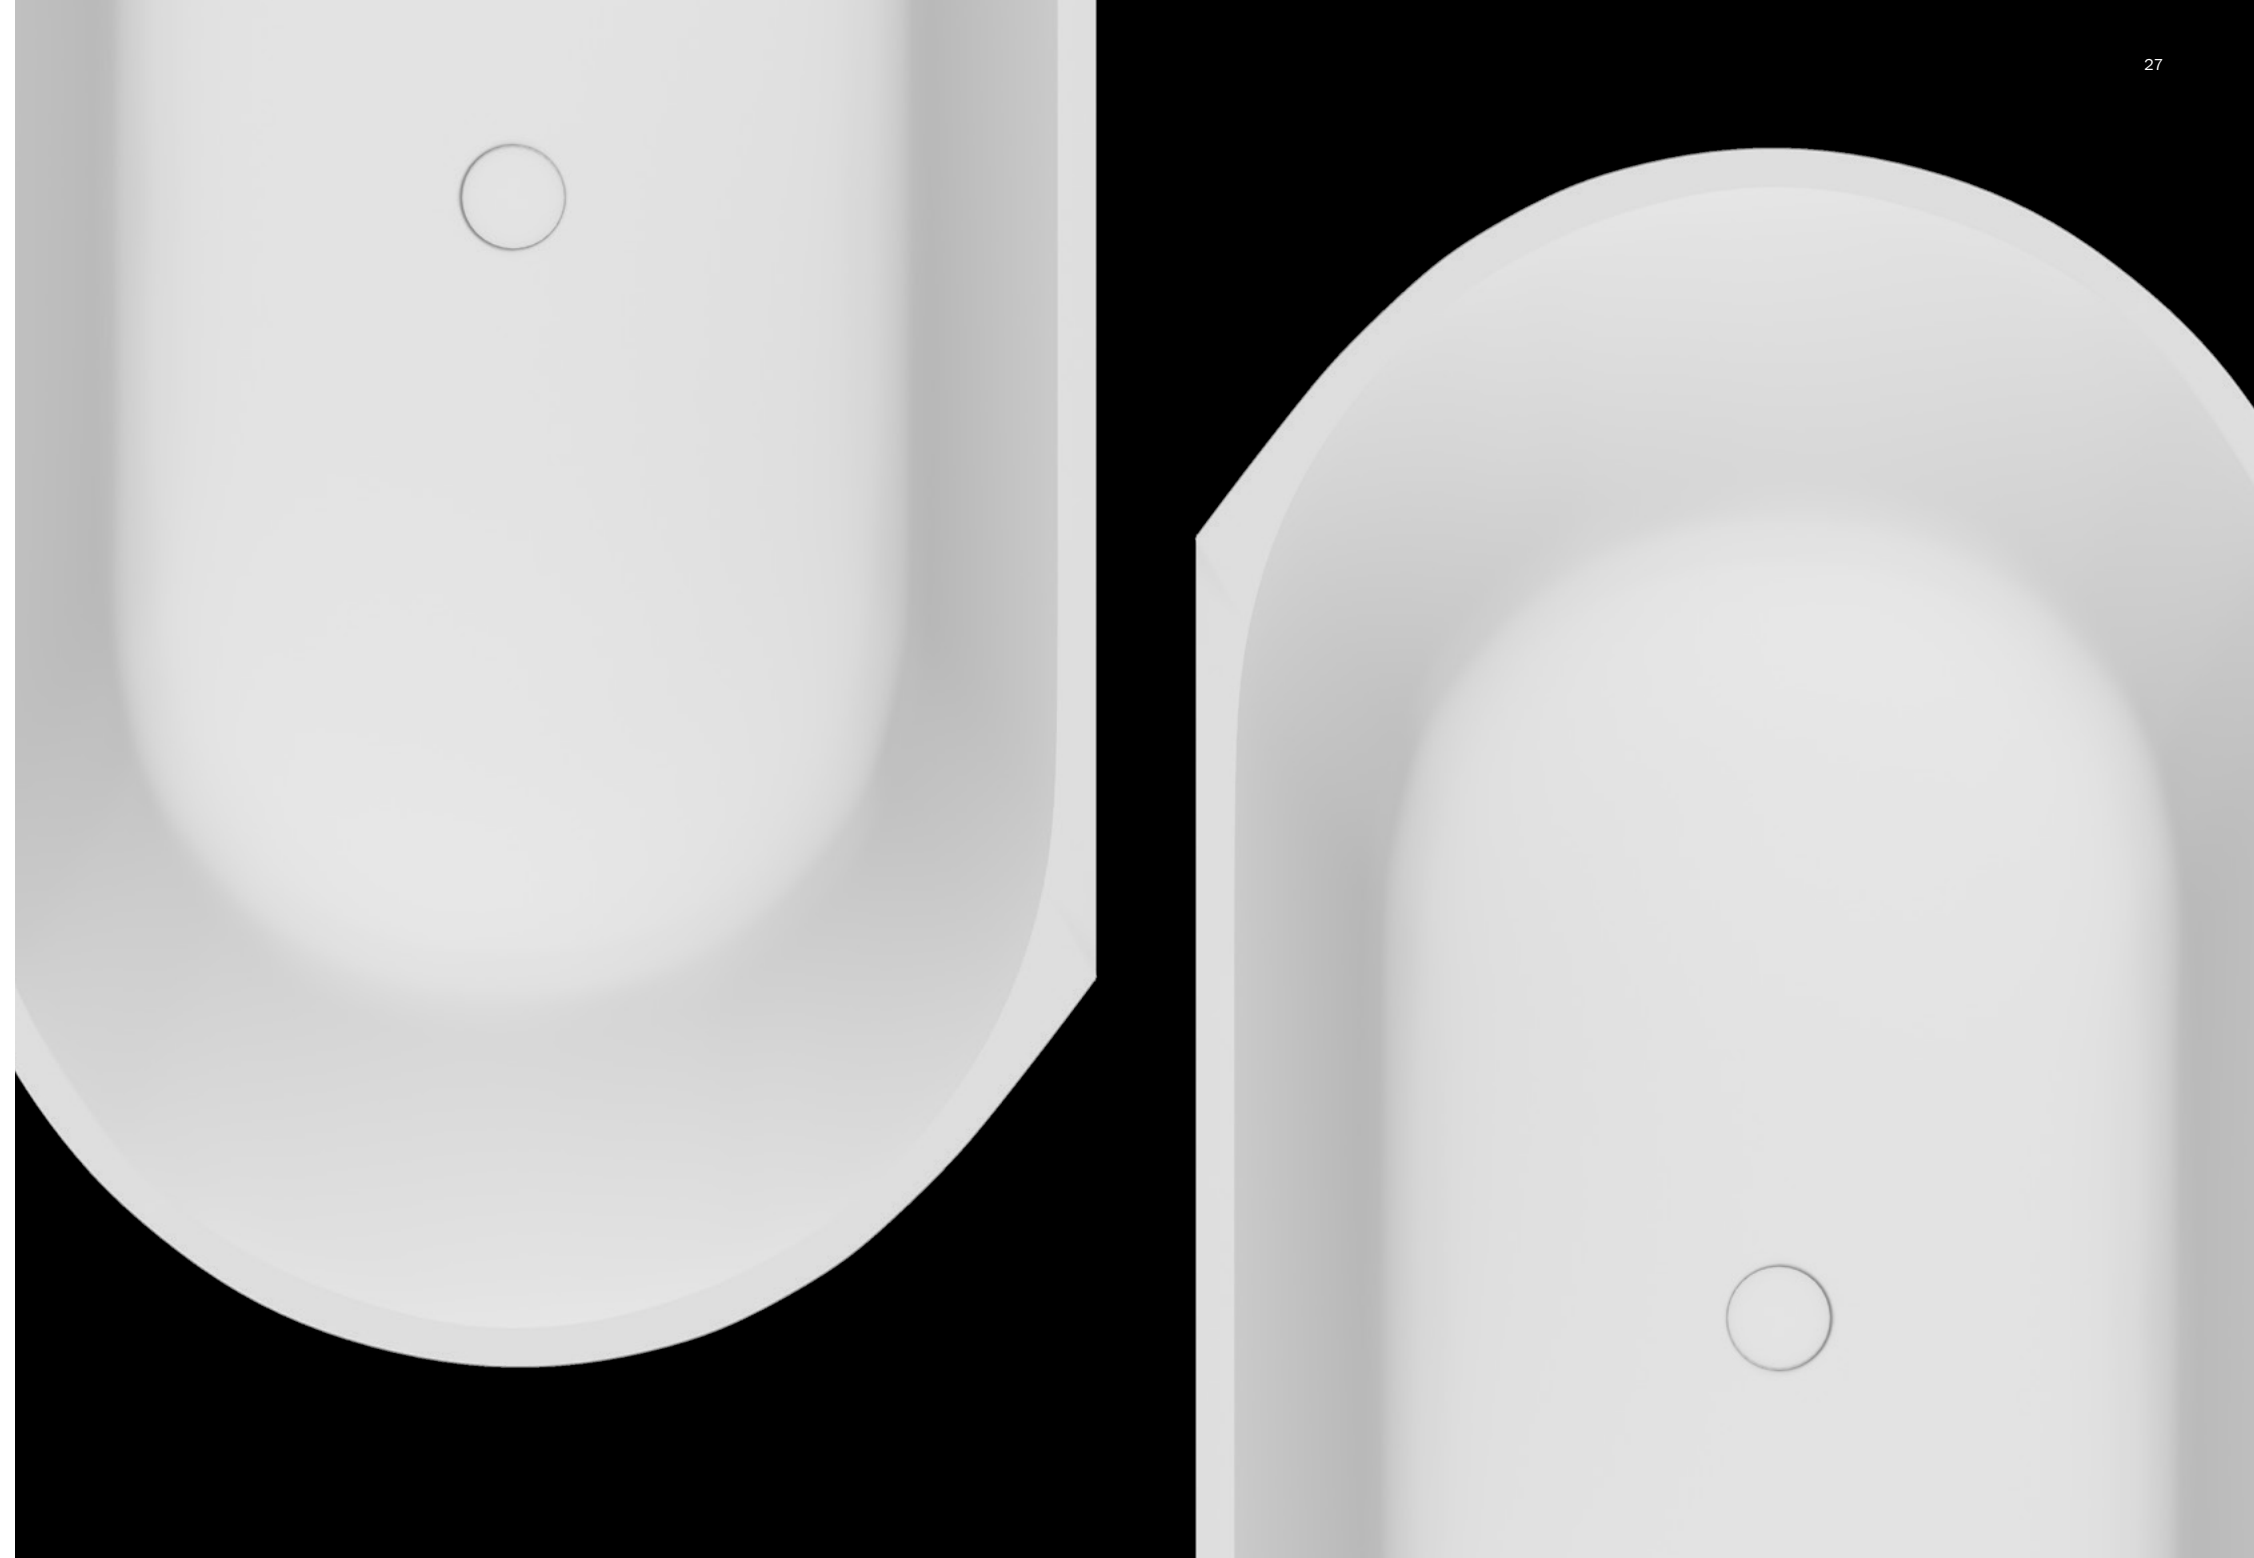

COLLECTION NEST

Designed for minimalism, NEST's narrow rim ensures a discreet wall connection that maximizes space while preserving the luxurious feel of a standalone bathtub, offering both comfort and beauty.

WHERE FUNCTIONAL COMFORT MEETS SOOTHING SERENITY IN EVERY SOAK.

Cleverly addressing spatial constraints that often prevent the installation of a traditional freestanding bathtub, NEST collection features an innovative "back-to-wall" design,

offering three distinctive oval bathtubs that can stand directly against the wall. Inspired by the comforting and embracing silhouette of the bathtub, the NEST collection preludes a calming experience of relaxation in a space that feels safe, comfortable, and sacred, unfolding a soothing bathing experience that makes a refined design statement in your bathroom.

NEST 8830 / 8831

BACK TO WALL FREESTANDING BATHTUB

NEST's modern, elegant outer shape is defined by precise edge radii that highlight sharp precision and clean geometric lines. This meticulous attention to detail creates a striking visual impact while maintaining a sense of softness exuding collected calm. The harmonious blend of these opposing elements ensures that the design is not only aesthetically pleasing but also functional, allowing the bathtub to seamlessly integrate into various bathroom styles, making it a perfect and sophisticated centrepiece.

POP-UP WASTE INCLUDED. WITH OVERFLOW AND OTHER DETAILS, PLEASE CONTACT US.

MODEL	COLOUR	MEASUREMENTS (MM)
8830	White Matt	1500 × 750 × 570
8831	White Matt	1700 × 750 × 570

Each element has been carefully considered to elevate the overall bathing experience, transforming it into a coveted moment of luxurious comfort and well-being.

NEST 8832/8833 | 8834/8835

RIGHT / LEFT CORNER FREESTANDING BATHTUB

NEST’s inner shape embraces a highly ergonomic approach, thoughtfully designed to provide optimal support and comfort. Its gentle sloping inner ledges not only enhance visual appeal but also facilitate ease of use. These fluid contours allow for a natural resting position, promoting relaxation while ensuring that the body is cradled comfortably. The ergonomic design minimises strain on the back and joints, making it ideal for extended soaks.
