

# HAILO

*installation technology.*

*Waste separation and organizer systems for  
the kitchen and utility room.*

# Welcome.

to the world of HAILO Built-In Technology.

Be inspired by our extensive range of convenient, useful built-in systems for the kitchen and utility room.

You can also read the introductory pages, where you can find out some interesting facts about HAILO.

Your HAILO Built-In Technology Team

The red dot is  
our trademark.

*For generations, HAILO has stood for quality products that make life and work in the household more pleasant. The HAILO red dot symbolises quality, innovation, safety and good design. For over 75 years, HAILO products have accompanied people around the world in their private households, offering convenience and safety at work. The HAILO brand has made a name for itself through many years of expertise and continuous consideration of customer needs, and is trusted by both private users and professionals.*

*Since its foundation in 1947, HAILO's vision, pioneering and innovative spirit, quality awareness and social responsibility have been inextricably linked. We offer reliable problem solutions with functional, attractive design in top quality. As the inventor of the aluminium household ladder and special waste collection solutions for households and businesses, HAILO is always one step ahead in the areas of home & business, built-in kitchen technology and professional. HAILO is constantly driven by the development of innovative and useful product solutions that fulfil the needs of its customers.*

# Three strong business divisions.

## HAILO Einbautechnik.

*HAILO Built-In Technology is a system supplier to the kitchen industry with high-quality waste separation and organisation systems.*

*Our products: Built-in waste bins, waste separation systems, organizer systems, functional systems, built-in pull-out tables, built-in folding steps, built-in modules for the utility room.*

# Awarded.

Since our foundation in 1947, HAILO has always raised the bar for safety and innovation. We have worked hard to develop products that are not only functional, but also aesthetically pleasing and of the highest quality. Our efforts have been recognised by numerous prestigious awards, confirming us as a pioneer in many areas. These awards are not only a recognition of our past, but also an incentive to continue to set new standards and exceed our customers' expectations. HAILO will continue to strive to excite and inspire through innovation, quality and design.

## RAT FÜR FORMGEBUNG

*The Major German Brands 2024*

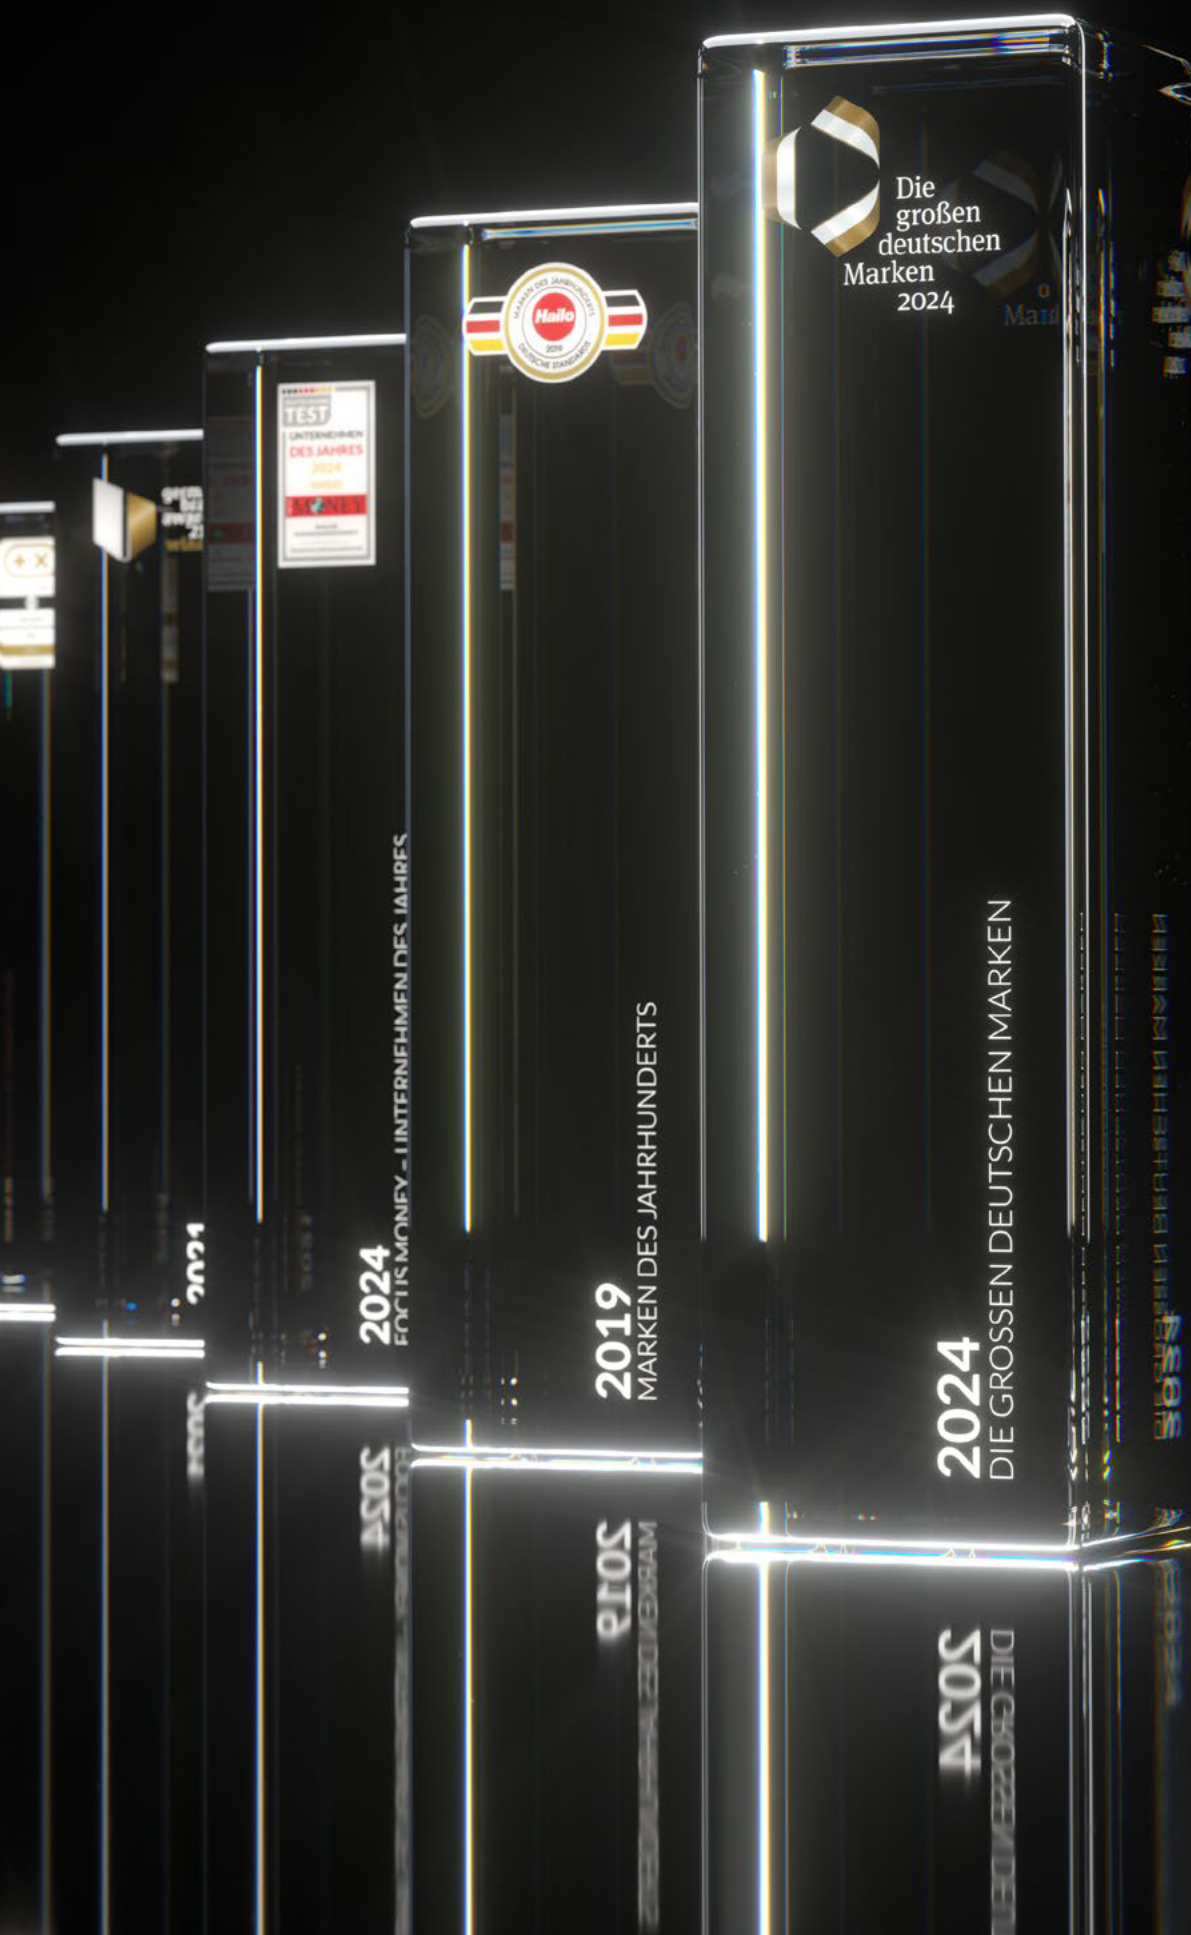

## FOCUS MONEY

*Company of the year 2024 | Customer satisfaction*

## RAT FÜR FORMGEBUNG

*Best customer satisfaction 2024 (ladders)*

# Always at hand.

*HAILO Built-In Technology attends trade fairs that are relevant to our customers. This is where we exhibit a representative selection of our comprehensive product portfolio. It is where our professional staff are waiting to discuss your specific needs. And it is where – together with you – new products and services are discussed and developed as required.*

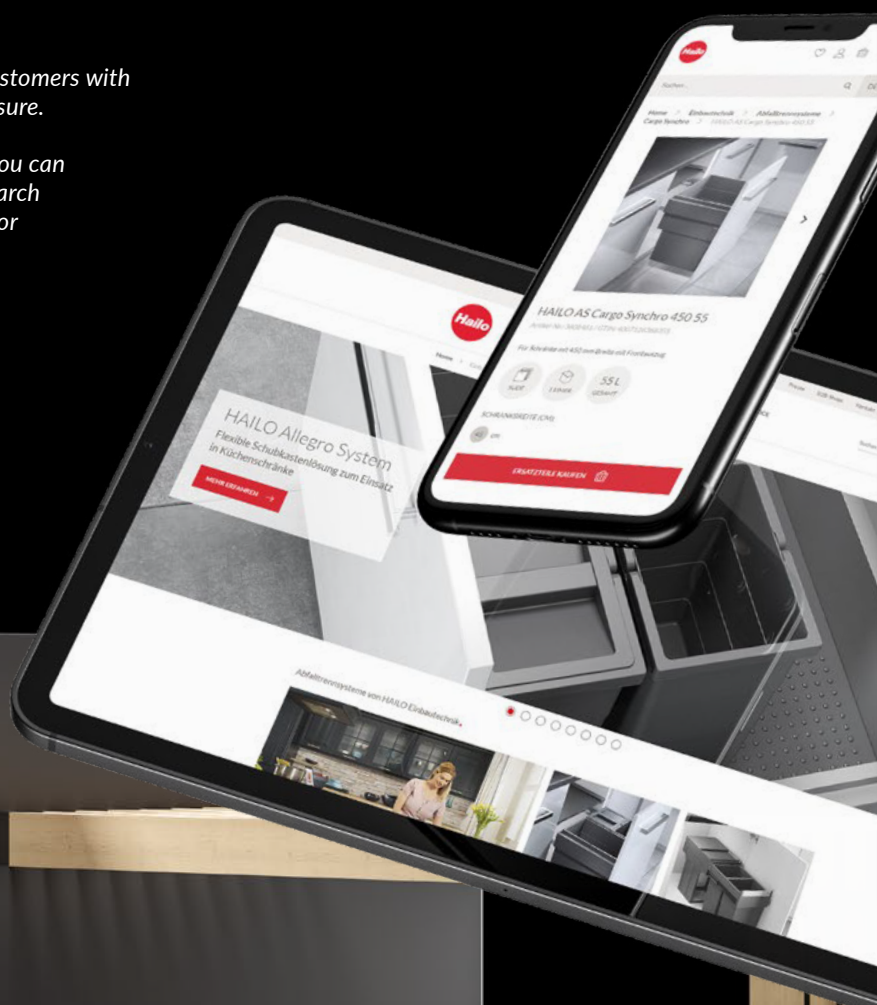

*We regularly exhibit at Interzum in Cologne and SICAM in Pordenone and invite you to visit us there.*

### Clean diversity

On the HAILO website, we provide industry, trade and end customers with useful information on our products and services in equal measure.

There are many ways to access the information you require: you can enter either the item number or the product name into the search screen or search for something via the navigation bar by text or by image.

# Sustainable.

HAILO also offers waste separation systems made from recycled plastics.

## Fields of action of our sustainability strategy.

At HAILO, we understand sustainability as a long-term corporate value and as a responsibility towards our employees, customers and partners. To illustrate the importance of sustainability, it is on the one

hand a central object of our strategy and on the other hand already giving direction to the handling of resources.

Corporate strategy: Sustainability

Sustainable packaging solutions

Optimised resource consumption

CO<sub>2</sub>-neutral shipping

## Fields of action of our sustainability strategy.

We are very pleased about the repeated silver rating from Eco- Vadis as recognition for our responsible actions. This is what reassures us to invest resources in a sustainable economic success even in future.

The four key factors of corporate social responsibility

Environment

Labour and human rights

Eethics

Sustainable procurement

## Energy and power management.

At HAILO, we pursue the goal of reducing costs and conserving resources through efficient energy and power management. This includes certifications for regular audits, the promotion of environmentally friendly e-mobility in the vehicle fleet and our own elec-

tricity generation through a combined heat and power plant and photovoltaics for the production processes.

Energy Management ISO 50001

Use of ecologically generated electricity

Promoting environmentally friendly e-mobility

Combined heat and power plant and photovoltaic system for own electricity generation

## Cooperations on the topic of sustainability.

company"

Campaign  
"Waste separation works"

# Ease of installation and service.

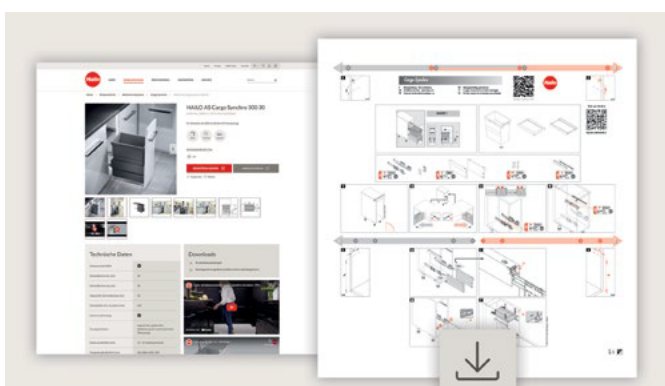

## Clear and illustrated installation instructions

*All HAILO built-in-products are supplied with a clear installation instruction.*

## Installation videos

*All these essential steps are clearly presented in different installation videos. You can download the video on the HAILO Built-In Technology website or simply view it at the YouTube channel of HAILO Built-In Technology.*

## Assembly instructions as PDF download

*All installation instructions and dimensional diagrams are available on the HAILO website for downloading as PDF files.*

# Our quality standards.

*All HAILO systems are subject to the strictest quality tests. A new product series is only launched on the market when, for example, 100,000 pull-out cycles have been tested under strict laboratory conditions.*

*High-quality slides guarantee safe, smooth running – for the life of the product! You can't see them, but you can feel and sense them every time you pull them out.*

*HAILO Built-In Technology meets the high demands of our discerning customers in every respect. Our aim is to meet these quality standards.*
